Trails Manitoba is proud to partner with the Province of Manitoba and The Winnipeg Foundation to offer one unified grant program for 2025: **Trails Grant for Manitoba**. Established through a \$4M provincial endowment in 2020, this grant supports the development and enhancement of recreational trails across Manitoba, celebrating the province’s vibrant communities, diverse landscapes, and welcoming spirit for residents and visitors alike.

For the 2025 application intake, approximately \$210,000 will be available to fund projects under this program. Given this amount, individual funding requests will be capped at **\$15,000** per application. While funding will prioritize trail **maintenance, feasibility studies, and trail enhancements**, all project types will be considered if they meet the eligibility requirements.

This grant is designed to enhance Manitoba’s trail system to bring about social, economic, and environmental benefits. Funded projects are encouraged to incorporate educational initiatives to promote responsible use and conservation, enriching the trail experience and fostering respect for natural resources. Trails Manitoba is committed to supporting trails that enhance the physical, mental, and social well-being of all users, enabling communities, associations, and stewards to maintain and expand a trail system that will thrive for generations to come.
